Thanks, that's right, I forgot about them.

Let me find out what is what, then fill them in and see if they have any further following up?
They will probably need more explanation before they express a specific interest.

I don't want Jerry to clam-up whenever I submit a request. If he starts to behave that way, then I will have to formalize, which is ok with me, but prefer to have a better dialogue.

George

George, we'll probably want to loop in ENF Division as well. Thanks, David

Subject: FW: (My Questions) DOGGR's Full Year Report - Form 7520

David,

Here's a copy of my request to Jerry Salera to discuss the 7520's further. The DOGGR was quite active however, I would like to know more information:

- (1) The 7520 Forms had categories of "Other, please clarify" but no clarification was provided.
- (2) I wanted to get a better understanding of the enforcement, including the 7520-4 Quarterly Exceptions – Trio Petroleum's "Unauthorized Injection" on 6 counts – and upcoming(?) penalties.

I got an auto message that he will be back after Jan 2nd, but this discussion can wait until then.

This is mostly for me to know the agency better and any changes they are going through, more than of verification. Let me know if you are interested.

George

Hi Jerry,

Thank you, I just reviewed the reports and have a few questions. Is there a time we can talk? I think we do not need to type a response as my questions are for information/clarification, but I may make a note to the file from our conversation notes.

Let me know as it may be difficult (or easier) during the holiday times.
